**ON THE COVER** ... Michael and Judy Minshew of Rome , Georgia, are the proud owners of the 1940 Ford we are featuring. Since this issue is a follow-up to our summer "USA" cover, we wanted to continue with another American made classic! The sleek design and lines of the late 30's and early 40's Ford are beautiful. This car is all steel, NO fiberglass in her! Even the engine and drivetrain are original to the car! A full restoration was done a few years ago and the Minshew family enjoys it regularly, not just for shows. White Pearl paint with red and white suede interior set off the look. This car is solid as a rock in appearance and mechanically! Our accessory is the lovely, Abral. Thanks so much to the Minshew family as well as our host family for the shoot, The Gordon Browns.

Take note ACCELERATOR FANS if you have a vehicle you want us to consider for an upcoming feature, or a lovely accessory (model) give us a call 423-622-7778 or email us at [acceleratormag@aol.com](mailto:acceleratormag@aol.com)

We are just beginning our photo shoots for the upcoming year. If you have previously submitted an item for consideration jog our memory! We have had some computer malfunctions in the past year and at one time lost some contact information.

Now - July 31, 2017, Thunder Creek Harley-Davidson and Mountain Creek Harley-Davidson are pleased to offer you Tires for Life on your new Harley-Davidson motorcycle. All routine maintenance must be performed as stated in the owner's manual at one of the following dealerships: Thunder Creek Harley-Davidson, Mountain Creek Harley-Davidson or Natchez Trace Harley-Davidson. No tire will be replaced without first confirming that the maintenance schedule has been maintained by one of the dealerships listed above. Any missed or skipped routine services will disqualify your motorcycle from the Tires for Life program. All qualifying tires must be replaced at one of the dealerships listed above. Other restrictions may apply. See Mountain Creek Harley-Davidson or Thunder Creek Harley-Davidson for full details.
